

COVID-19 Protocol for The Office of Institutional Data & Reporting at Navajo Technical University

To ensure the wellbeing and safety of everyone during these challenging times, as well as to remain in compliance with local, state and federal guidelines, the Office in Institutional Data & Reporting will be **teleworking through the end of December 2020**. Minimal office hours will be kept during the month only to conduct essential business.

The Office in Institutional Data & Reporting is a department with two staff members: (1) full-time staff and one (1) temporary student intern. We are located on the second floor of the Student Union Building (SUB) at the Main-Crownpoint campus. Majority of institutional reports are completed and submitted online using a computer therefore, teleworking is the most practical and safest choice during this time for the department. You can always contact the director through email or telephone if you have any questions.
